Always know what's going on at home.

IP Cameras for your safety
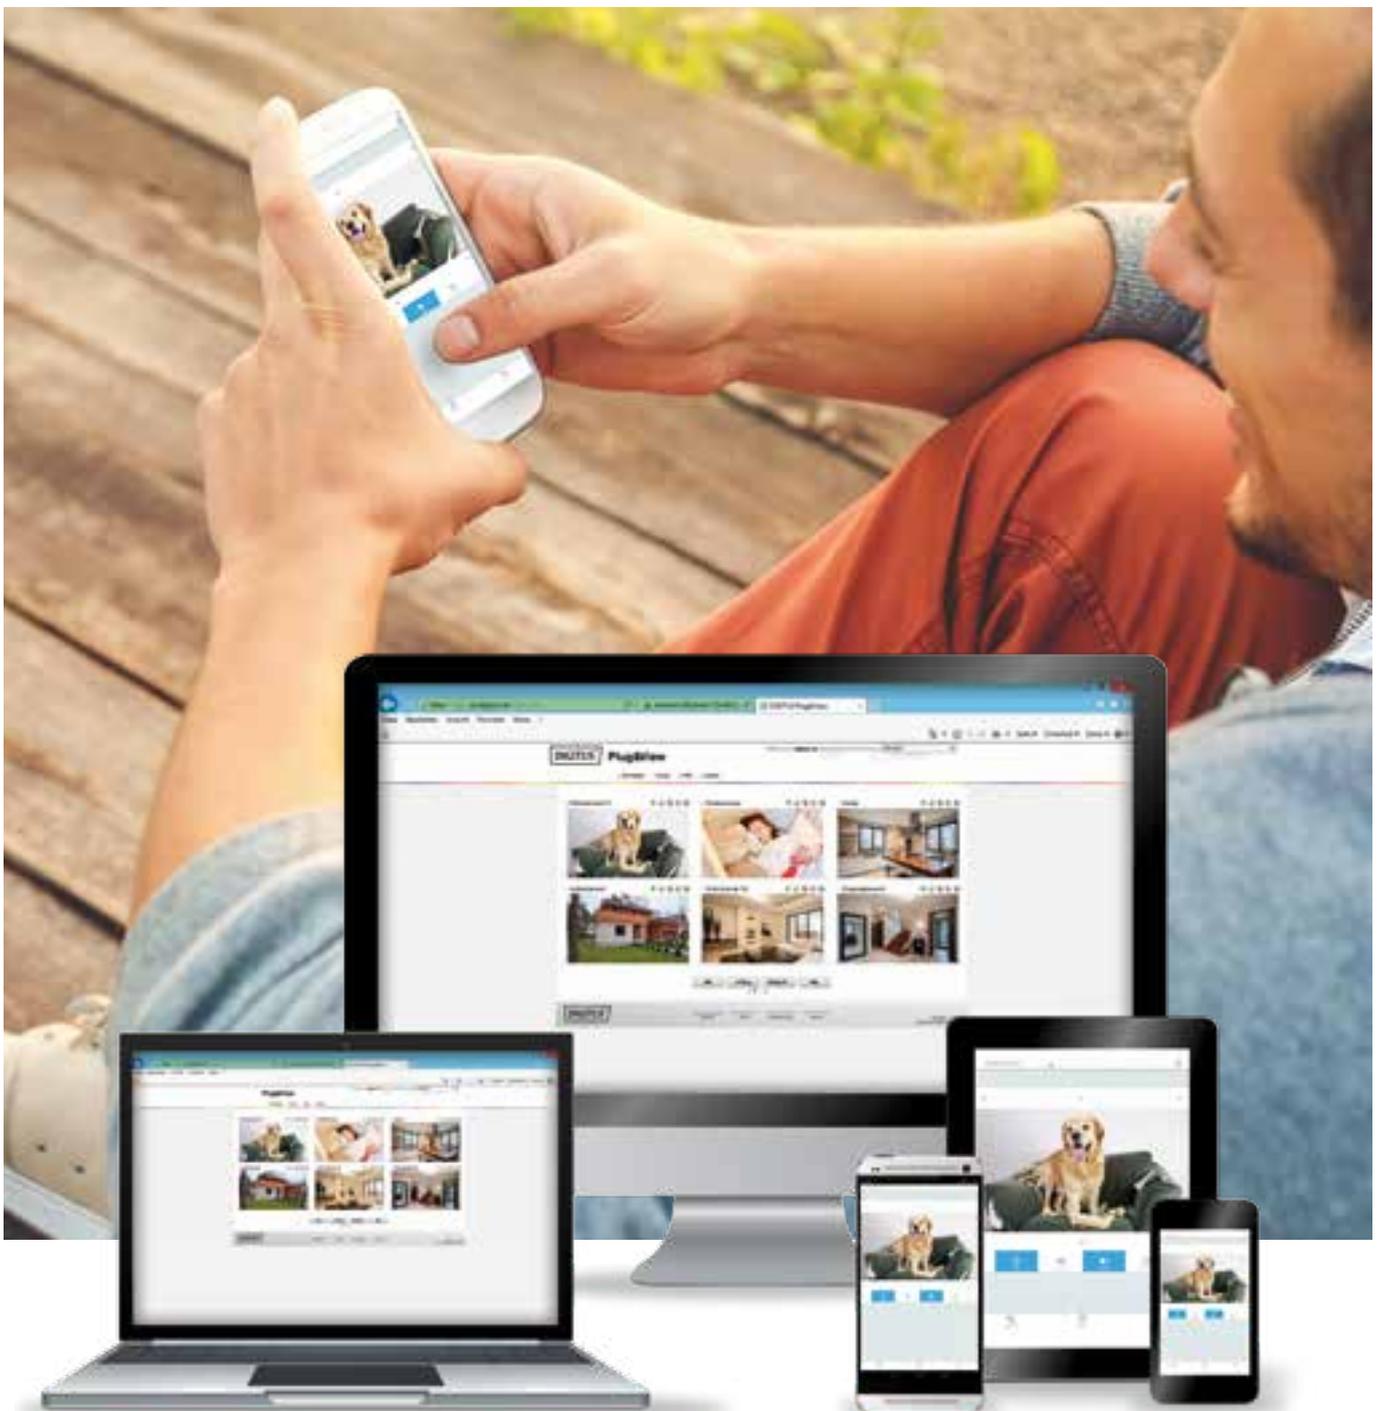

DIGITUS®

The Plug&View system

Always keep an eye on what's important to you – this is how DIGITUS® Plug&View works

Thanks to the new Plug&View system, the cameras are ready to use in three brief steps via app.

Advantages and details

Use several cameras with only one system, at all places and all times.

Access is from anywhere using the proprietary DIGITUS® app and a smartphone, tablet or internet browser, PC or Mac.

Application areas

The applications of security cameras are varied: The concept of the Plug&View cameras enables you to stay in touch with the family when you're out, visually and acoustically, thanks to a 2-way audio function, or to check up on babies and children, or to look after your grandparents who are living alone.

Easy installation in just 3 steps via App

DIGITUS® Plug&View cameras feature a new and innovative installation method:

The connection between the user and camera is established automatically by way of each camera's individual code and the online service 'my-DIGITUS'. No time-consuming and work-intensive installation procedures are required.

The installation is as simple as it could be and works as follows:

1 Establish network connection
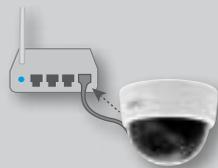

2 Scan QR Code or register camera on login.myDigitus.net

3 Ready to go!

Motion Detection & Pre-Recording

Don't miss any event.
All DIGITUS® Plug&View cameras give you the option to be alerted directly if there is an event. This will provide you with a maximum feeling of security.

See details of the event before it happens.
Through the camera´s internal memory a pre-recording of 5 sec. is possible, before the movement is recognized by the camera. This is helpful for recording people's approach to the camera before they are detected by its motion detection, for example.

5 seconds before   Motion detection   Camera loop rec.

Watch our Digitus®
Plug & View Video

...who comes into my house.

...that my baby sleeps contentedly.

...that everything is running fine in the business.

It is good to know...

Future-proof

Integrate your DIGITUS® Plug&View cameras in existing smart home environments very easily.

Integrating the DIGITUS® Plug & View cameras in smart home and NAS systems not only enables you to control your smart home, but also to keep the entire system under surveillance. This will give you a maximum feeling of security.

DIGITUS® Plug&View cameras are very easy to use with the following smart home systems:

WORKS WITH
mediola®

works with
everHome - Smart Home in der Cloud

Google play

App Store

everhome.de

Network Storage

You can integrate the IP camera system in your existing network infrastructure very easily.

Store your videos directly on the (NAS) device in your network.

The Plug&View system supports the following NAS storage systems to provide you with central access to your videos in your network:

asustor
an ASUS assoc. co.

Synology

QNAP

DIGITUS®

...that my dogs are playing on the new couch.

...that everything is in order in the holiday cottage.

...that my parents are in good hands.
Sharing Function
Allow other users access to your camera

Admin
Allow access

User 1
via Smartphone

User 2
via Computer

User 3
via Tablet

Multiple access easily made!
Cross Operation System Administration

Put your parents in a position to cast a gaze on their beloved grandchildren. With the Plug&View sharing function, you can share the live stream of the camera with your neighbours, for example, to keep a watchful eye on your home while you are away on holiday, all without giving them your password.

Cloud Storage

Since the video is in the cloud, users can manage the playback.

If desired, your recordings can be centrally synchronized with Google Drive. This enables you to access your recordings later.

Local Storage

Store your videos on a integrated memory or separated SD-Card

Another video storage option is local storage. Plug&View cameras also feature local video storage options, either in the integrated memory or on an external memory card. Please check the various models for storage options.

Integrated memory
(All outdoor cameras)

Integrated memory   Google sync
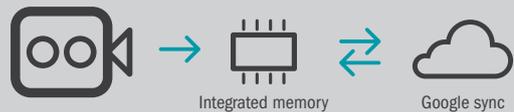

Separate SD-Card
(all indoor cameras)

SD-Card   Google sync
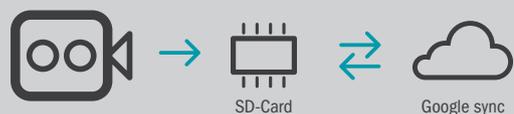

P2P Tunnel

A secure connection guaranteed

The myDIGITUS server, whose fail safety is guaranteed by its five servers around the world, offers the user a service that makes the camera accessible from the outside.

The account ID of the app, web portal and camera is sent to the server in an encrypted form using https, without needing configuration settings for the network or camera.

The video contents are then relayed between the camera and the device (smartphone, tablet, PC) by way of an encrypted P2P tunnel. This means that video contents are not sent by way of the server and are therefore also not accessible to third parties.

Safety with good feeling

· Supports Power over Ethernet
· IR LEDs and IR cut filter included for day & night surveillance
· Lens: F1.4 / 2.8 - 12 mm
· Horizontal viewing angle: 20° - 65°

DIGITUS®

OptiDome Pro

337348 / DN-16043

Your wireless outdoor Plug&View IP camera with IP66 housing and optical zoom

Description

More safety for your home. The DIGITUS® Plug&View OptiDome Pro is part of the new DIGITUS® Plug&View generation and was designed specifically for outdoor use.

The vandalproof dome cover is extremely shock-resistant and protected against sabotage. Consider to mount OptiDome Pro under the ceiling of small warehouses or your carport.

Equipped with infrared LEDs the weatherproof camera provides the optimal day & night surveillance. Always have an eye on what is important.

Highlights & Details

- 2 megapixel video resolution (Full HD 1920 x 1080, HD720 1280 x 720)
- Manually adjustable lens with 4 times zoom
- Advanced motion detection, record and save events via email/FTP/Google Drive
- 4GB memory included for supporting cloud storage
- Supports Power over Ethernet
- IK10 vandal-proof protection
- IR-LEDs and IR cut filter included for day & night surveillance
- Lens: F1.4 / 2.8 - 12 mm
- Horizontal viewing angle: 20° - 65°

DIGITUS®

OptiZoom Pro

356950/ DN-16048

Your wireless Plug&View IP camera with pan and tilt fuction, IP66 housing and optical zoom

Description

The Plug & View OptiZoom Pro secures your outdoor area. The camera is in a safe and stable housing, thanks to the IP66 protection class. Thus it is splash-proof.

The lens offers a viewing angle of 30.8 to 95.9 degrees. Equipped with a resolution of 2 megapixels, the OptiZoom Pro provides excellent surveillance images, which you can access, of course, through the browser or app on your smartphone or tablet.

Six IR LEDs provide good visibility even in the dark, the range here is 30 meters. The 4-times optical zoom helps you to optimally adjust your camera to the monitored area. The power can also be provided with high PoE. Thus, the camera can also be operated without additional power supply.

Highlights & Details

· 2 megapixel video resolution (Full HD 1920 x 1080, HD720 1280 x 720)
· Remotely controlled pan and tilt function (Pan: 360°, Tilt: 90°)
· 4 times optical zoom lens
· Advanced motion detection, record and save events via email/FTP/Google Drive
· 4GB memory included for supporting cloud storage
· Supports Power over Ethernet (PoE)
· IK10 vandal-proof protection
· IR LEDs and IR cut filter included for day & night surveillance
· Lens: F1.4 / 2.8 - 12 mm
· Horizontal viewing angle: 30.8° - 95.5°

DIGITUS®

DIGITUS® PLUG&VIEW NVR

329886 / DN-16150
378150 / DN-16150_1
378167 / DN-16150_2

The perfect addition to your Plug&View cameras!
Optional available with 1TB or 2TB HDD

Description

The DIGITUS® Plug&View NVR is a network video recorder, recording, storing and displaying live images from up to four Plug&View cameras simultaneously on a monitor or flat screen TV. The unobtrusive device is a convenient and innovative addition to the Plug&View system.

The recorder can be set up as quickly and easily as the Plug&View cameras by scanning the QR code.

It automatically detects up to four Plug&View cameras integrated in the network and is immediately operational. Thanks to its HD video interface the camera images can be displayed on a monitor or any modern flat screen TV.

With the DIGITUS® Recorder app you can see the live camera images and recordings of your NVR on your smartphone or tablet anywhere and at any time.

Highlights & Details

· Full HD audio/video transmission (1080p)
· 4 channel live view at local display with 1080p Full HD HDMI output
· Record of up to 4 cameras with 25fps @ 720p
· Local user interface supported for liveview, playback and configuration setup via VGA or HDMI monitor
· LAN Speed: 10/100/1000Base-T Gigabit Ethernet
· Video compression format: H.264
· Recording: scheduled recording
· Watch live stream via free of charge app from everywhere
· The NVR is particularly tuned to the Plug&View system and can only be used with the Plug&View cameras.
· Operating temperature: -10 °C ~+50 °C
· Power source (±10 %): DC12 V / 2 A
· DN-16150_1 comes with 1TB HDD local storage
· DN-16150_2 comes with 2TB HDD local storage
